AN INDEX TO ALBERTA
TOWNSHIP SURVEY PLANS

MAPS ALBERTA
JULY, 1985

AN INDEX TO THE ALBERTA TOWNSHIP SURVEY PLANS

INTRODUCTION

The purpose of this publication is to provide a comprehensive record of all survey plans completed under the Third Dominion Land Survey System. The index is divided into the following four sections:

1. Township Plans
2. Baseline Plans
3. East Outline Plans
4. Settlement Plans

The township listing is the primary index with the baseline, east-outline and settlement plans cross-referenced to their own individual and separate listings.

This listing has been compiled by "Maps Alberta" and as this is the first publication of this kind, your comments for future editions are most welcome.

Please address comments to: MAPS ALBERTA
ALBERTA BUREAU OF SURVEYING AND MAPPING

Telephone Number: (403) 427-3520

TOWNSHIP PLANS

Township plans are plans of survey, each covering one township. The plans indicate monuments, bearings and distances.

The index listings are set up by range. Each page contains the listing of one complete range from township 1 through 126 inclusive. The definitions and codes used, located at the top of each page, for the township index are as follows:

<u>CODE</u>	<u>LONGFORM</u>	<u>DESCRIPTION</u>
Twp	Township	These are listed in numerical order from 1 to 26.
Date Apr	Date Approved	Date the edition was approved by either the Surveyor - General of Canada or the Director of Surveys - Alberta.
ED	Edition	Identifies the number of revisions that have been made to the plan. Earlier editions will be ordered on request.
St	Status	Identifies specific information relating to each township plan.

UNDER STATUS, THE FOLLOWING CODES ARE USED:

S	Complete Survey	Completely surveyed with the exception of lands within Indian Reserves and National Parks.
I	Incomplete Survey	Only a portion of the township has been surveyed.
U	Unsurveyed	No plan exists.
F	Fractional	Due to the convergence of range lines with the meridian, the township contains less than 36 full sections.
X	Non Existent	Due to the convergence of range lines with the meridian, the township does not exist.
BC	British Columbia	The plan is completely within B.C. boundaries. No plan available from Maps Alberta office.

<u>CODE</u>	<u>LONGFORM</u>	<u>DESCRIPTION</u>
IR	Indian Reserve	The plan is completely within an Indian Reserve. No plan available from Maps Alberta office.
NP	National Park	The township is within the boundaries of a National Park. A plan may exist if the area was surveyed before the establishment of the park. If the plan does exist, the township will be described as "surveyed".
	Lake Athabasca	The township is located within a lake. The name of the particular lake is stated in the listing.

MISCELLANEOUS COLUMN

The primary function of this column is a cross-reference from the township index to other types of survey plans. The abbreviations used are:

<u>CODE</u>	<u>LONGFORM</u>	<u>DESCRIPTION</u>
SP	Sectional Plan	A more detailed plan(s) of one or more of the sections in the township exists.
E	East Outline Plan	An east outline plan is available for that particular township. See the east outline section of the index for more details.
Bnn	Baseline Plan	A baseline plan is available for that township. The 'nn' stands for the baseline number. The baseline section of the index will provide more details.
Snn	Settlement Plan	A settlement plan exists within the township. The 'nn' stands for the settlement plan number used in the index. See the settlement plan portion of the index for more information.
SUB	Subdivision Plan	These plans describe the land that reverted back to the Crown, after the original land grant as an Indian Reservation. They are only available through the Land Titles office of the Attorney General.

BASELINE PLANS

A baseline is a surveyed line running east-west along the boundary between two adjacent townships. The 1st baseline runs along the 49th parallel at the base of Township 1. Baselines occur every four townships thereafter. (i.e. along the base of township 5,9,13 etc.) Baseline plans are only issued where adjacent north-south townships are both unsurveyed. If one of the two north-south townships is surveyed, the surveyed township plan provides the baseline information, and so a baseline plan is not required.

Each individual baseline plan includes a portion of one baseline running across several ranges. In addition to delineating the boundary between adjacent townships, the baseline plan details the bearings, distances and monuments along the baseline.

EAST OUTLINE PLANS

An east outline plan is similar to a baseline plan except that they run north-south between two adjacent townships and delineate the east-west boundary between the townships. As with baseline plans, the east outline plans detail bearings, distances and monuments. East outline plans are only available for those areas where adjacent townships have not been surveyed. East outline plans are available for most of the 4th, 5th and 6th meridians, but are not available at regular intervals between meridians.

East Outline Plans - West of the 4th Meridian

Range	Township(s)	Approval Date
1	67-70	15-9-1930
	71-74	15-9-1930

SETTLEMENT PLANS

Settlement plans are the original historic plans of survey for those communities which were established before the introduction of the Alberta Land Survey System. The township-range survey could not be applied to these communities because the existing land ownership pattern was incompatible with the new survey grid.

The settlement property boundaries were surveyed from the verbal descriptions provided by the settlers. As the communities expanded, new editions and extensions frequently became part of the original settlement plan. These revisions occurred primarily in locations where the township survey had not been completed or finalized.
